

easy to use

effective in delivery

efficient in energy utilization

economical to own & operate

enduringly reliable

MMA Si SERIES

### the eWeld MMA IGBT series:

- employs the latest german made IGBT technology
- new attractive all steel, IP21s compliance casing design for safety, durability & better heat dissipation
- is lighter, more energy-efficient & easy to operate
- highly productive with non-stop continuous welding ability
- produces quality welding result with deep penetration & good weld pool
- suitable to use with many type of welding rod, inclusive of cellulose rod

SPECIFICATION	MMA168i	MMA200i	MMA230i
Power Rating	AC 230V @ 50/60Hz		
Rated Input Capacity (KVA)	3.6	4.5	5.6
Output Current (A)	10 -170	10 - 200	10 - 230
Weldable Electrode Size (mm)	2.0 - 3.25	2.0-4.0	2.6-5.0
Rated Duty Cycle (%)	65		
Efficiency (%)	85		
Weight (kg)	5.2	5.7	8.5
Dimension (mm)	345 x 150 250	385x150x220	

# ISO9001 CE
